About The Author

Alley Cat Rescue

Louise and Tequila, who was rescued in Mexico.

LOUISE HOLTON has founded two international cat advocacy organizations in the U.S., including Alley Cat Allies and Alley Cat Rescue, of which she is currently the president. Louise helped pioneer Trap-Neuter-Return (TNR) in the U.S., bringing her experience of working with feral cats from her home country of South Africa.

Over the past four decades, she has assisted over 40,000 cats, presented at numerous conferences and symposiums, and won several awards, including a Muse Medallion from the Cat Writers' Association for her informational booklet, "Feral Cat Colony Management and Control: Facts and Myths about Feral Cats" and her series of articles published in *The*

Animals' Voice. Louise has been presented with the National Humane Achievement Award from the Humane Coalition of Massachusetts and the Animal Kingdom Kindred Spirit Award and Animal Champion Pin from the Doris Day Animal Foundation.

She lives in Maryland with some of the unadoptable cats ACR has rescued over the years, including some who are feral and could not be returned to their colonies, plus an alley cat who was diagnosed with FIV. Also sharing her home are two dogs, Lily and Bandit, rescued from Mexico when ACR ran their mash-style clinic there.
